

Literacy growth you can measure

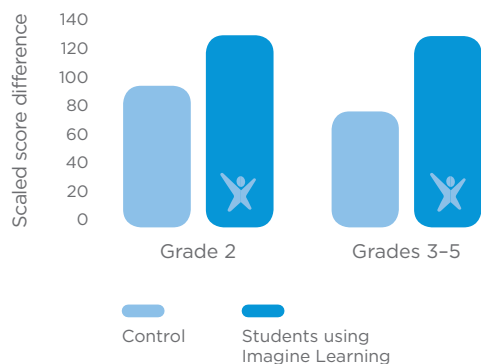

Student engagement leads to better outcomes

Say hello to proven results for **Pre-K through grade 6 students**, with dynamic instruction that's research-based, strategically scaffolded, and incredibly engaging to use.

Imagine Language & Literacy delivers personalized instruction that adapts to each student's unique needs. With over **4,300 engaging activities** and **support in 15 languages**, the program builds powerful academic language and literacy skills and accelerates student achievement.

**UP TO 65% GREATER
READING
GAINS**
with Imagine Language & Literacy

A recent study demonstrates that students using **Imagine Language & Literacy in grade 2 and grades 3-5** showed **36% and 65% greater gains**, respectively.

Differentiation

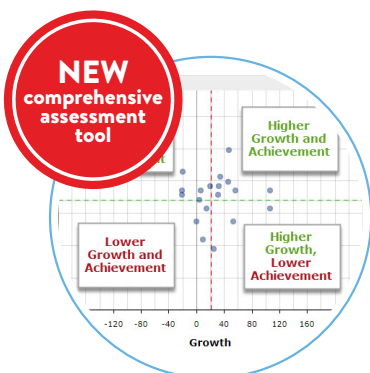

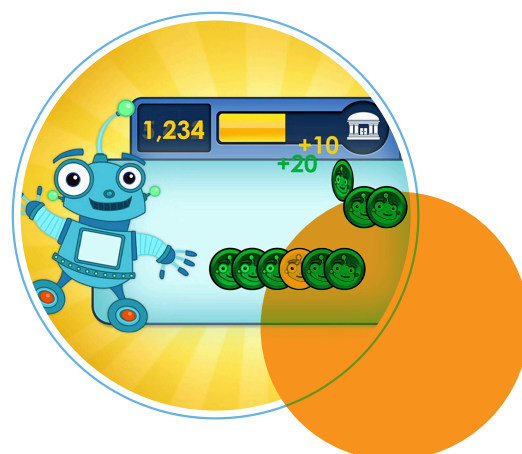

Ensure that students are working on the edge of their learning curve with instantly differentiated instruction

- **An adaptive placement test** pinpoints strengths and identifies gaps, placing each student at the optimal entry point for learning.
- **Every learner follows a personalized, adaptive instructional sequence** in academic language, literacy, and grammar.
- **Targeted online lessons and resources** close learning gaps and help all students progress to grade-level work—and beyond!

Engagement and Motivation

Utilize research-proven gamification strategies to motivate student learning

- **Thousands of live action videos** and animated activities engage and challenge students.
- **Immediate instructive feedback** establishes a growth mindset and encourages students to persevere with challenging content.
- **Students earn additional rewards** based on growing proficiency.
- **Digital and printable resources** build engagement at home, too!

Galileo® K-12 Assessment

Imagine Language & Literacy's effective, engaging instruction is now enhanced with **Galileo K-12's** assessment system. With over 30 years of research behind it, Galileo K-12 provides a **comprehensive assessment system** that incorporates the best of learning science.

- **Universal screener utilizes benchmark assessments** to place students at a developmentally-appropriate starting point
- **Progress monitoring through formative assessments** shows student growth throughout the year
- **Predictions to state or national test proficiency**
- **Dyslexia screening toolkit**

Language Development

Accelerate sophisticated academic and discipline-specific language development through reading, writing, listening, and speaking

- **Targeted academic vocabulary** is developed with live-action video examples, helping students master the high-leverage vocabulary they need participate actively in classroom discussions.
- **Discipline-specific vocabulary** is presented in appropriate, grade-level context, giving students the vocabulary they need to thrive in their content-area classes.
- **Contextualized general vocabulary**, including basic school topics, idioms, and other abstract language, provides students the essential vocabulary they need to engage in instruction.
- **English learners** benefit from digital support in 15 languages and printable materials in five additional languages.
